

MUHAMMAD SHAKEEB KHALID

FULL STACK MERN DEVELOPER • SOFTWARE ENGINEER

Islamabad, Pakistan | 0334-9494939 | syedshakeebkhalid@gmail.com
linkedin.com/in/m-shakeeb-shah-767314316 | github.com/ShakeebShah

PROFESSIONAL SUMMARY

Full Stack MERN Developer and Software Engineering graduate with hands-on experience building production-style web applications using React.js, Node.js, Express.js, and MongoDB. Recently delivered three full-stack MERN projects covering marketplace platforms, vendor management systems, and real-time booking workflows — implementing secure JWT authentication, role-based access control, RESTful APIs, responsive UI/UX, and database design. Skilled in AI-driven workflow automation (n8n), mobile app development (Android/Unity), and end-to-end SDLC practices including requirement analysis and system architecture design. Seeking a Full Stack / Web Developer role to build scalable, secure, and user-focused digital products.

TECHNICAL SKILLS

- Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design
- Backend Development:** Node.js, Express.js, RESTful API Design, PHP
- Database & Data Management:** MongoDB, SQL Server, SQLite, Database Design & Relationships, Query Optimization
- Authentication & Security:** JWT Authentication, Role-Based Access Control (RBAC), Password Hashing (bcrypt), Input Validation
- Programming Languages:** JavaScript, Python, C++, Java, C#
- Tools & Platforms:** Git & GitHub, Postman, Cloudinary, Visual Studio, Android Studio, Unity, VS Code
- Other Skills:** AI Workflow Automation (n8n), Software Requirement Engineering (SRE), Software Architecture Design (SAD), Agile/SDLC, Business Analysis (SQE, SCD)

PROFESSIONAL EXPERIENCE

Full Stack MERN Developer Intern — Teyzix Core

Jun 2026 – Jul 2026

Islamabad, Pakistan (Internship Program)

- Completed three full-stack MERN (MongoDB, Express.js, React.js, Node.js) development projects as part of a structured, industry-based internship program, each delivered on schedule and evaluated against production-quality criteria.

Smart Community Service & Local Marketplace Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Cloudinary, Tailwind CSS

- Architected a production-grade, full-stack community marketplace enabling users to list products, offer services, manage bookings, and communicate in real time.
- Implemented secure JWT-based authentication, role-based access control, and protected routes across customer, provider, and admin roles.
- Built product and service marketplace modules with multi-image uploads, smart search and filtering (keyword, category, location, price, rating), and a review & ratings system.
- Developed real-time messaging with Socket.io, an in-app notification system, and a booking module with a full status-tracking workflow.
- Designed an admin panel for user management, listing approvals, reported-content moderation, and platform analytics.

Multi-Vendor Service Marketplace Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, bcrypt, Cloudinary

- Built a full-stack service marketplace connecting customers with freelancers/service providers, similar to Fiverr/Upwork-style platforms.
- Implemented JWT authentication and role-based access control for Customer, Service Provider, and Admin roles, with secure password hashing via bcrypt.
- Created service-provider profiles (skills, portfolio, pricing) and service listings with category-based search and filtering.
- Developed a project-tracking module with a five-stage workflow (Pending → Accepted → In Progress → Completed → Delivered) and a review & rating system.

- Delivered role-specific dashboards for customers, providers, and admins, and ensured full responsiveness across desktop, tablet, and mobile.

Vendor Management & Quotation System

Tech Stack: *React.js, Node.js, Express.js, MongoDB, REST API*

- Developed a centralized web platform for organizations to manage vendor records, raise quotation requests, and compare vendor proposals.
- Built RESTful CRUD APIs for vendor and quotation management, including search, filtering, and quotation status tracking.
- Designed a quotation comparison module that highlights the most cost-effective vendor proposal to support faster procurement decisions.
- Implemented a dashboard summarizing total vendors, active/pending/approved quotations, and recent activity, with full form validation and error handling.

Web Development Intern — National Assembly of Pakistan 2026

Islamabad, Pakistan

- Assisted in developing and maintaining internal web applications using PHP, improving reliability of existing modules.
- Performed modifications and feature updates to existing systems in coordination with senior developers, following structured change-management practices.

Web Development Intern — VVT Globals 2024

- Developed and shipped front-end and back-end features for client web applications using React.js and Node.js.
- Collaborated with the development team on API integration and UI implementation within an agile workflow.

ADDITIONAL PROJECTS

- **E-Learning Hub (Final Year Project, 2024):** Mobile app enabling teachers to share notes/assignments and students to submit work, with a peer-to-peer mentorship system; applied SRE and SAD principles (use case, class, sequence modeling; Client-Server, N-Tier, SOA patterns).
- **Email Automation & Inventory Management System:** Built AI-driven automation workflows using n8n for email automation and inventory management, gaining experience in workflow automation and API integrations.
- **Online Grocery Store:** React-based e-commerce web app with authentication, product listings, shopping cart, and order management.
- **2D Snake Game & Digital Clock Simulation:** Built game logic (C#/Unity) and a real-time system simulation (Python) demonstrating strong programming and modeling fundamentals.

EDUCATION

B.S. Software Engineering — Capital University of Science and Technology, Islamabad 2024

FSc Pre-Engineering — Indus Group of Colleges, Islamabad 2019

Matriculation (Science) — Chanab Group of Colleges, Islamabad 2017
